Eastern Ontario's #1 Dunk Tank Rental Supplier
www.dunkman.ca

Things you should know about renting a dunk tank. There are so many questions that we get asked, so we decided to put together this helpful letter. From start to finish, the dunk tanks "how to's".

Event Types

There are many types of events that dunk tanks are great for. We have listed some of the more popular events below:

- Company picnic – Dunk the boss or manager
- School – Dunk the principal or teacher
- Political – Dunk the M.P or other public figure
- Fundraiser – Dunk the celebrity or clown

Booking

Booking a dunk tank is simple. Call or email us and search for an available date. Once we have decided on a date, the delivery and pick up time will be set. The tank is normally filled 2 ways.

- 1.) Garden hose – This can take between 1 and 1.5 hours to fill, therefore we will deliver your Dunk Tank 1.5 hours before the start of your event.
- 2.) Fire truck or water truck- Depending on the type of your event you may be able to have the fire department come over and fill your tank. If not a local water company can come by and fill it. Both of these methods take about 10 minutes. The water truck method can cost around \$90.00.

Delivery

Things you should know when the dunk tank arrives – The dunk tank must be on a flat level surface. Grass or pavement is ok. Grass is preferable as the balls don't roll as far. Placement of the tank should be in the sunlight (to help heat the water) try to keep it out in the open, so the sun can stay on it throughout your event. When we deliver the Dunk Tank to your site, you or a representative must be present to sign and take delivery of the unit. It is your responsibility for the safety of your guests and the safe operation of the Dunk Tank. Once the tank is in place we will give you the thumbs up to start filling.

Safety

Safe use and proper operation – Here are some basic tips and rules for using the Dunk Tank:

- 1.) Unit will be set up in a safe, flat area, free of debris and electrical items.
- 2.) Keep water level at least 8" from the top of tank.
- 3.) Only one person at a time is allowed on seat or in tank.
- 4.) Keep all non-swimmers and anyone less than 5' (5 feet) out of tank
- 5.) To avoid slipping in the tank, always wear tennis shoes.
- 6.) Advise "dunkee" to move towards the front of the tank when coming up out of the water to avoid hitting head on seat
- 7.) If tank is to be left unattended, you must drain water.
- 8.) Only use the supplied balls. These balls are designed for the Dunk Tank. Other types of balls may cause damage to Target.
- 9.) Never stand on seat.
- 10.) When sitting on seat, keep hands on knees and sit forward.
- 11.) Do not hit target with hands.
- 12.) Do not operate Dunk Tank during a storm.
- 13.) Have fun, and please use common sense.
